Work on K-61 bridges in Hutchinson set to begin

Starting around Monday, July 22, the Kansas Department of Transportation will begin a bridge repair project on the K-61 Highway bridges in the City of Hutchinson over A Avenue and the bridge north of A Avenue over the BNSF Railroad.

This bridge repair project will include replacement of the expansion joints followed by a surface overlay, and is scheduled to be completed by November, depending on delays due to adverse weather conditions.

During construction the bridge will be limited to one lane of traffic northbound and one lane of traffic southbound. Highway construction project locations and road condition information can be viewed at the http://511.ksdot.org website, or can also be accessed by telephone by dialing 511.

Dondlinger & Sons Construction Company Inc. from Wichita is the prime contractor for this $828,207.80 project, which is funded by T-WORKS, the transportation program passed by the Kansas Legislature in May 2010. For more information about T-WORKS projects and funding visit the website, www.ksdot.org/tworks.

KDOT urges all motorists to be alert, obey the warning signs, and “Give ‘Em a Brake!” when approaching and driving through a highway work zone. Persons with questions about the road work or other KDOT projects can call South Central Kansas Public Affairs Manager, Martin Miller, at 620-663-3361 or 1-877-550-5368 (Toll free).
