# Harper County Bridge Replacements East of Attica Commence

The Kansas Department of Transportation (KDOT) will begin to upgrade/replace six bridges east of the City of Attica along US-160 and west of the south junction US-160/K-2. The bridge replacement project is planned to begin in mid-February and is scheduled to be completed by December 2017, depending on delays due to adverse weather conditions.

Initial construction will not affect through traffic or create delays. As the bridge replacement project progresses, later phases will require road closures. Future press releases will be forthcoming with more information as to when road closures will occur.

King Construction from Hesston, Kansas is the prime contractor for the \$11,436,000 project, which is funded by T-WORKS, the transportation program passed by the Kansas Legislature. For more information about T-WORKS projects and funding visit the website, [www.ksdot.org/tworks](http://www.ksdot.org/tworks). Highway construction project locations and

road condition information can be viewed at the [www.kandrive.org](http://www.kandrive.org) website, or can also be accessed by telephone by dialing 511.

KDOT urges all motorists to be alert, obey the warning signs, and “Give ‘Em a Brake!” when approaching and driving through a highway work zone. Persons with questions about this road work or other KDOT projects can call South Central Kansas Public Affairs Manager, Zach Oswald, at 620-663-3361 or 1-877-550-5368 (Toll free).
