U.S. 77 bridge repair in El Dorado beginning soon

Repair on a U.S. 77 bridge in El Dorado will start soon.

The Kansas Department of Transportation project will be on the U.S. 77 bridge over the west branch of the Walnut River. The work will install a new overlay on the bridge deck and replace the south bridge joint.

The project is expected to begin around April 11 and be completed around mid-June.

During the work, traffic will be limited to one lane in each direction, and signs will direct motorists to decrease their speed.

PBX Corp. & Subsidiary, of Sapulpa, Oklahoma, is the primary contractor for the \$260,766 project.

The map below shows the approximate project location, marked in red.
