## **Concrete Patching work on US-50 Highway between Newton and Walton**

Starting around Monday, April 13, the Kansas Department of Transportation (KDOT) will begin a concrete patching project on US-50 Highway in Harvey County, from the north I-135/US-50 interchange continuing east to the west city limits of Walton. Traffic through this work zone will be controlled by flagmen and pilot car, so drivers can expect delays of up to 15 minutes. There will be an 11 foot width restriction in the work zone, so vehicles with widths wider than 11 feet will need to use an alternate route. This project is scheduled to be completed by late July, depending on delays caused by adverse weather conditions.

Chester Bross Construction Co. from Hannibal, Missouri is the prime contractor for this \$1,590,098.94 project, which is funded by T-WORKS, the transportation program passed by the Kansas Legislature in May 2010. For more information about T-WORKS projects and funding visit the website, [www.ksdot.org/tworks](http://www.ksdot.org/tworks). Highway construction project locations and road condition information can be viewed at the <http://511.ksdot.org> website, or can also be accessed by telephone by dialing 511.

KDOT urges all motorists to be alert, obey the warning signs, and "Give 'Em a Brake!" when approaching and driving through a highway work zone. Persons with

questions about this road work or other KDOT projects can call South Central Kansas Public Affairs Manager, Martin Miller, at 620-663-3361 or 1-877-550-5368 (Toll free).
