Project to resurface 17-mile section of K-49 in Sumner County

Work is expected to begin around April 5 on a \$2.5 million project to resurface a 17-mile section of K-49 in Sumner County.

The Kansas Department of Transportation project involves a mill and hot-mix-asphalt overlay on K-49 from Avenue A in Caldwell north to the U.S. 160 junction.

During the work, traffic will be restricted to one lane and controlled by a pilot car and flaggers during daylight hours. Motorists should be prepared to slow down and stop and face a delay of up to 15 minutes. There is a 10-foot width limit.

The project is expected to be completed around late May.

The map below shows the project location, marked in red.

Pearson Construction, of Wichita, is the primary contractor for the \$2,537,466 project.
