## **KDOT resurfacing K-105 in Woodson County**

The week of July 9 the Kansas Department of Transportation (KDOT) started a resurfacing project on the entire 10-mile section of K-105 in Woodson County.

Project activity consists of a hot in-place recycle operation, a cure period, and the application of the chip seal. Flaggers and a pilot car will direct one-lane traffic through the work zone during daylight hours throughout the recycle phase; expect delays of 15 minutes or less. K-105 will be open to two-way traffic during the cure period. Traffic will again be reduced to one lane with a pilot car for the chip seal. No resurfacing will take place within the city limits of Toronto.

KDOT awarded the \$411,000 construction contract to Dustrol, Inc., of Towanda. The road work should be finished in one month, weather permitting. KDOT reminds drivers to watch for the signs and flaggers, and to "Give 'Em a Brake!" at the work zone. Persons with questions may contact KDOT Iola Area Engineer Darrin Petrowsky at (620) 365-2161 or Public Affairs Manager Priscilla Petersen at (620) 902-6433.
