U.S. 169 section in Allen County to close for pavement reconstruction

In late April the Kansas Department of Transportation (KDOT) plans to start a pavement reconstruction project on a seven-mile section of U.S. 169 in Allen County, from Minnesota Road south to Delaware Road. Project activity consists of replacing the concrete pavement on the mainline and interchange ramps, and reestablishing a new subgrade base.

During the week of April 23, weather permitting, KDOT will close this section of U.S. 169 to through traffic. The highway will remain closed between Minnesota and Delaware roads until the project is finished in the spring of 2019. The signed state route detour for U.S. 169 southbound traffic: from U.S. 54 at Lola proceed west on U.S. 54 to U.S. 75, travel south on U.S. 75 to K-39, then proceed east on K-39 to U.S. 169 at Chanute. Northbound U.S. 169 traffic should follow the same detour route in the opposite direction.

KDOT awarded the \$16 million construction contract to Emery Sapp & Sons, Inc., of Columbia, Mo. Persons with questions may contact Darrin Petrowsky, KDOT area engineer at the lola office, (620) 365-2161, or Priscilla Petersen at the KDOT office in Chanute, (620) 902-6433.
