K-31 bridge replacement project starts this week

Tuesday, July 20, the Kansas Department of Transportation (KDOT) expects to start a bridge replacement project on K-31 in Anderson County. The bridge is over the North Fork Little Osage River drainage approximately two miles east of the east U.S. 59 junction.

The contractor will build a temporary two-lane road around the work zone that traffic will use during construction of the new bridge. KDOT awarded the construction contract of \$545,109 to WCI Incorporated of Paola. Weather permitting, the project should be finished in early 2022.

Check KDOT's updated traveler information website, www.Kandrive.org, for more road condition and construction details. KDOT urges all motorists to be alert and obey the warning signs when approaching and driving through a work zone. Persons with questions about this and other KDOT projects may call Area Engineer Donna Schmit at (785) 433-6107 or Public Affairs Manager Priscilla Petersen at (620) 902-6433.
