K-31 bridge survey begins in Anderson County

Wednesday, April 28, the Kansas Department of Transportation (KDOT) plans to begin a field survey at the Pottawatomie Creek Bridge on K-31 in Anderson County. The bridge is eight miles west of Garnett.

The length of the survey is approximately 6,500 feet on the existing highway alignment. Survey findings will be used to design a bridge replacement project. KDOT expects the survey to be finished by July 1. Activities include the use of survey instruments on the ground to determine locations of existing features within the corridor.

A member of the survey crew will contact property owners or tenants for permission to enter private property. Charles Brooksher, PEC, will manage this survey for KDOT. Persons with questions may contact KDOT Public Affairs Manager Priscilla Petersen, (620) 902-6433.
