K-3 bridge survey begins March 15

Monday, March 15, the Kansas Department of Transportation (KDOT) plans to begin a field survey at the Little Osage River Bridge on K-3 in Bourbon County. The bridge is approximately two miles south of the Bourbon-Linn county line.

The length of the survey is 3,000 feet on the existing highway alignment. Survey findings will be used to design a bridge replacement project. KDOT expects the survey to be finished by April 16.

Activities include the use of survey instruments on the ground to determine locations of existing features within the corridor. A member of the survey crew will contact property owners or tenants for permission to enter private property. Joe Bowen will oversee this KDOT survey. Persons with questions may contact KDOT Public Affairs Manager Priscilla Petersen, (620) 902-6433.
