K-3 surface recycle to begin April 19

The Kansas Department of Transportation (KDOT) plans to begin work on a K-3 resurfacing project on Monday, April 19. The project starts at the west K-3/K-39 junction and continues north to U.S. 54.

Project activity includes a one-inch surface recycle, followed by a chip seal. KDOT awarded the \$868,508 construction contract to Dustrol Inc. of Towanda. Flaggers and a pilot car will direct one-lane traffic through the work zone; expect delays of 15 minutes or less. A 10-foot driving lane width restriction will also be in effect.

The road work should be completed in one month, weather permitting. Persons with questions may contact Iola Area Engineer Troy Howard, (620) 901-6557, or Public Affairs Manager Priscilla Petersen, (620) 902-6433.

Check KDOT's updated traveler information website, www.Kandrive.org, for more road condition and construction details. KDOT urges all motorists to be alert and obey the warning signs when approaching and driving through a work zone.

K-3 resurfacing project, Bourbon County
