## Field survey to begin on K-99

The week of Oct. 10 the Kansas Department of Transportation (KDOT) plans to start a field survey at the Homer Creek drainage culvert on K-99 in Greenwood County. The culvert is 3 miles north of U.S. 54 (see map).

The survey area of 2,000 feet is based on the existing alignment. Survey crew members will gather information for a future culvert replacement project. KDOT expects the survey to be complete by Dec. 15.

Activities include the use of survey instruments on the ground to determine locations of existing features within the corridor. A member of the survey crew will contact property owners or tenants for permission to enter private property. Chuck Robinson of Schwab Eaton will manage the survey for KDOT. Persons with questions may contact KDOT Public Affairs Manager Priscilla Petersen, (620) 902-6433.
