## Survey to begin on K-52

The Kansas Department of Transportation (KDOT) plans to start a survey at the Little Sugar Creek drainage culvert on K-52 in Linn County the week of Oct. 17. The culvert is approximately 1 mile west of the K-7/K-52 junction (see map).

The survey area of 2,500 feet is based on the existing alignment. Survey crew members will gather information for a future culvert replacement project. KDOT expects the survey to be complete by Dec. 30.

Activities include the use of survey instruments on the ground to determine locations of existing features within the corridor. A member of the survey crew will contact property owners or tenants for permission to enter private property. John Lilak of Bartlett & West will manage the survey for KDOT. Persons with questions may contact KDOT Public Affairs Manager Priscilla Petersen, (620) 902-6433.
