K-31 bridge survey to start next week

The week of June 12 the Kansas Department of Transportation (KDOT) plans to begin a survey of the two Rock Creek drainage bridges on K-31 in Coffey County. The bridges are located 2.21 miles east of Pearson Avenue in Waverly, and ½ mile west of the Coffey-Anderson county line.

The approximate length of the survey area is 5,000 feet. The survey is based on the existing highway alignment and is expected to be finished by September.

Activities include the use of survey instruments on the ground to determine locations of existing features within the corridor. A member of the survey crew will contact property owners or tenants for permission to enter private property. Michael Lay of GBA will manage the survey for KDOT. Persons with questions may contact KDOT Public Affairs Manager Priscilla Petersen, (620) 902-6433.
