Concrete repairs begin on U.S. 75/400

The Kansas Department of Transportation (KDOT) has started a full-depth concrete patching project on the northbound lanes of U.S. 75/400 in Montgomery County. The road work is located between the south junction of U.S. 75/400 and the Wilson County line. Traffic is restricted to one lane with a speed limit of 50 miles per hour. Weather permitting, the work should be finished by early December.

KDOT urges all motorists to be alert and obey the warning signs when approaching and driving through a highway work zone. Check KDOT's updated traveler information website, www.Kandrive.gov, for more highway condition and construction details. Persons with questions may contact KDOT Superintendent Marcus Leck, (620) 577-7313, or Public Affairs Manager Priscilla Petersen, (620) 902-6433.
