Bridge survey to begin on K-68

The week of March 6 the Kansas Department of Transportation (KDOT) plans to start a field survey at the bridge over Turkey Creek on K-68 east of Ottawa. The bridge is east of K-33.

The survey area of 2,500 feet is based on the existing alignment. Survey crew members will gather information for a future bridge replacement project. KDOT expects the survey to be complete by July.

Activities include the use of survey instruments on the ground to determine locations of existing features within the corridor. A member of the survey crew will contact property owners or tenants for permission to enter private property. Travis Biddinger of Trekk will manage the survey for KDOT. Persons with questions may contact KDOT Public Affairs Manager Priscilla Petersen, (620) 902-6433.
