Geometric Improvement project in Ness City

Work has started on a geometric improvement project in Ness City. The project runs from Chestnut Street to just north of Cedar Street on U.S. 283 and will reconstruct the intersections and storm sewers.

Two-way traffic will be carried through construction and the Kansas DOT urges drivers to be alert, pay attention to all work zone warning signs, slow down when approaching a work zone and be prepared to stop.

Bryant & Bryant Construction, Inc., of Halstead is the primary contractor on this T-WORKS geometric improvement project at a cost of approximately \$680,000. KDOT expects work on this project to be completed by the end of November, depending on weather.

If you have questions on this project, you can call Joyce Muhlenbruch, Construction Engineer, at 620-227-6122 or Kirk Hutchinson, KDOT Southwest Public Affairs Manager, at 1-877-550-5368 (toll free).

You can stay aware of all road construction projects across Kansas at www.kandrive.org or by calling 5-1-1. To learn more about this and other T-WORKS projects, visit www.ksdot.org/tworks.
