Work continues on Garden City's U.S. 50/83/400 bypass thru winter

Work is expected to continue on the U.S. 50/83/400 bypass in Garden City as weather allows thru the winter months. The bypass will re-open to normal traffic flow from the south U.S. 50 junction/Fulton Street overpass to the K-156/Kansas Avenue ramps during the week of Dec. 9th. Traffic will remain on the ramps at K-156/Kansas Avenue and Mary Street until the project is completed.

"The contractor has been focused on getting the main line and Spruce Street completed, so that traffic can be moved off the detour as soon as possible," said Ron Hall, KDOT's District Six Engineer. "There is still some work to be done on the bridge approaches at K-156/Kansas Avenue and Mary Street. This allows us to re-open highway south of K-156/Kansas Avenue and re-open Spruce Street."

Originally scheduled to be completed by Thanksgiving, the project has taken a little longer than expected.

"This is a large project," Hall said. "We've had a few complications along the way that have delayed completion of the project, but we've kept those to a minimum."

For more information on this project, contact Craig Schlott, Area Construction Engineer, at (620) 765-7096 or Lisa Knoll, KDOT District 6 Public Affairs Manager, at (620) 765-7080.
