Roadwork to Begin in Rooks and Osborne Counties

Two resurfacing projects are scheduled to begin September 2nd, weather permitting..

The first project is an ultrathin bonded asphalt surfacing on U.S. 24 from the Graham County line to Stockton in Rooks County.

The second project consists of a three inch mill and four ½- inch overlay on U.S. 24 from Stockton to near Alton in Osborne County.

Traffic will be reduced to one lane and controlled by flaggers and a pilot car during daylight hours. Minor delays should be expected during construction, not exceeding 15 minutes.

The Kansas Department of Transportation urges all motorists to be alert, obey the warning signs, and “Give ‘Em a Brake!” when approaching and driving through the construction zone.

KDOT awarded these construction contracts – totaling \$7.4 million – to APAC Kansas, Inc. **These projects should be completed by mid-October, weather permitting.**

This project is funded by TWORKS, the transportation program passed by the Kansas Legislature in May 2010. Find out more about this and other T-WORKS projects at: <http://kdotapp.ksdot.org/TWorks/>.

For questions concerning the project, please contact KDOT Area One Construction Engineer Jim Riener at (785) 543 2163 or jriener@ksdot.org.
