KDOT to Perform Pavement Tests in the Area

The Kansas Department of Transportation (KDOT) will be conducting pavement evaluation tests on portions of K-23 and K-383 in Sheridan County and K-283 in Trego County from Oct. 20 through Oct. 23.

This operation will include the use of a pilot car operation to control traffic. KDOT performs Falling Weight Deflectometer tests annually to test the quality of the pavement and certain aspects of deflection upon the roadway. Technicians will be working in four-mile segments while performing the tests and travelers should expect a minimal wait of 15 minutes or less while the survey is underway.

For questions concerning the FWD tests, contact KDOT District Three Maintenance Engineer, Michael Terry at 785-877-3315 or mterry@ksdot.org.
