Chip seal starting on U.S. 36 in Cheyenne County

The Kansas Department of Transportation will start a chip seal project on a portion of U.S. 36 in Cheyenne County this week.

The project area covers a 16-mile portion from the east K-27 junction near Wheeler to the Rawlins County line. Traffic will be reduced to one lane through the construction zone and directed by flaggers and a pilot car. Minor delays not exceeding 15 minutes should be anticipated. KDOT expects the project to be completed by the end of July, weather permitting.

Heft and Sons is the primary contractor with a total contract cost of approximately \$506,000. For more information, contact Atwood area engineer Eric Oelschlager at 785-626-3258 or eric.oelschlager@ks.gov.
