Survey work planned on U.S. 281 in Russell County

The Kansas Department of Transportation will begin a field survey along U.S. 281 in Russell County starting Oct. 12.

Crews will be surveying approximately 11 miles of U.S. 281 starting at Land Road and ending at the west K-18 junction to gather information for the detailed design of a proposed pavement and shoulder widening project.

Activities will include the use of survey instruments on the ground to determine locations of existing features within the survey corridor. Work is expected to be completed by the end of October, weather permitting.

Crews will contact property owners or tenants for permission to enter private property, if access is needed. Michael Selley, field survey project manager, will oversee the survey for KDOT.

Persons with questions may contact KDOT public affairs manager Lisa Mussman at 785-874-8107 or lisa.mussman@ks.gov.
