Drone surveying underway on U.S. 83

A field survey is underway on a portion of U.S. 83 in northwest Kansas, according to the Kansas Department of Transportation.

Crews from Olsson of Lincoln, Neb., are surveying KDOT right-of-way in Logan, Thomas, Sheridan and Decatur counties starting at the U.S. 40 junction in Oakley and ending near the U.S. 36 junction in Oberlin. Activities include the use of a drone to collect aerial footage for a project to place conduit for transportation infrastructure along the route. Drones will not survey private property.

Work is expected to be completed by the end of August.

Persons with questions may contact KDOT public affairs manager Lisa Mussman at 785-874-8107 or lisa.mussman@ks.gov.
