Public comments requested for K-383 project

The Kansas Department of Transportation is asking for public comments on options to improve a portion of K-383 in Norton and Phillips counties.

The section under consideration spans approximately 14 miles starting near Almena and ending 2.5 miles east of Long Island. KDOT, in conjunction with Wilson & Co. and GBA, have proposed three different construction alternatives for public review.

Brochures detailing the project options will be available for the public at the Almena and Long Island community buildings. The information can also be viewed online at www.k383almenatolongisland.com.

Comments will be accepted through March 5 and can be submitted in the following ways:

- Comment drop boxes located in the Almena and Long Island community buildings
- Through the project website at www.k383almenatolongisland.com
- Via email to lisa.mussman@ks.gov

Persons with questions may contact KDOT public affairs manager Lisa Mussman at 785-877-3315 or lisa.mussman@ks.gov.
