K-383 field survey underway in Norton and Phillips counties

The Kansas Department of Transportation has started a field survey on a portion of K-383 in Norton and Phillips counties.

Crews are working along 13 miles of K-383 from Almena to near W 800 Road in Phillips County to update survey mapping and drainage structures. Activities will include the use of survey instruments on the ground to determine locations of existing features within the survey corridor. KDOT expects work to be complete by October 1.

Crews will contact property owners or tenants for permission to enter private property if access is needed. Doug Roeder of Wilson and Co. will oversee the survey for KDOT.

Persons with questions may contact KDOT public affairs manager Lisa Mussman at 785-874-8107 or lisa.mussman@ks.gov.
