K-23 project added to IKE construction pipeline

A portion of K-23 in Sheridan County was among 11 expansion and modernization projects that were recently moved into the Eisenhower Legacy Transportation Plan (IKE) construction pipeline.

The Kansas Department of Transportation project will reconstruct and add shoulders on 6 miles of highway starting at Walnut Avenue in Hoxie and ending approximately one-quarter mile south of County Road 70 South (CR-406). KDOT will also replace the bridges located along the route over the South Fork Solomon River and Sand Creek.

The project is currently scheduled to let for construction in early 2024. Work is expected to begin in 2025 and will require the road to be closed with a state route detour in place.

For more information about the project, please contact KDOT area engineer Eric Oelschlager at 785-443-1266 or eric.oelschlager@ks.gov.
