Survey starting on K-8 bridge in Smith County

The Kansas Department of Transportation has started a field survey for a proposed project to replace the Middle Beaver Creek drainage bridge, located along K-8 in Smith County.

The bridge is located approximately 12 miles north of the U.S. 36 junction. Survey activities include the use of survey instruments on the ground to determine locations of existing features within the survey corridor. KDOT expects work to be complete by the end of March.

Crews will contact property owners or tenants for permission to enter private property if access is needed. Kara LaRiviere, project survey manager, will oversee the survey for KDOT.

Persons with questions may contact KDOT public affairs manager Lisa Mussman at 785-874-8107 or lisa.mussman@ks.gov.
