Field survey to start on U.S. 24 bridge in Osborne County

The Kansas Department of Transportation plans to begin a field survey for a proposed bridge replacement project on U.S. 24 in Osborne County around Aug. 15.

Crews are surveying the South Fork Solomon River drainage bridge, located 3.85 miles east of the Rooks County line. Activities will include the use of survey instruments on the ground to determine locations of existing features within the survey corridor.

KDOT expects work to be completed in October.

A member of the survey crew will contact property owners or tenants for permission to enter private property if access is needed. Tyson LeSage of Kirkham Michael will oversee the survey for KDOT.

For more information, please contact KDOT public affairs manager Lisa Mussman at 785-874-8107 or lisa.mussman@ks.gov
