K-82 surface recycle, chip seal begins today

Beginning today, the Kansas Department of Transportation has started work on two projects for a surface recycle and chip seal on K-82 in Clay and Riley counties. Work on K-82 will begin at the K-15 junction and head east approximately 11 miles, through Wakefield, to U.S. 77.

Drivers should expect a delay of up to 15 minutes and plan extra time in their travel schedules. Construction will occur during daylight hours and traffic will be reduced to one lane following a pilot car through the work zone.

Dustrol Inc. of Towanda is the prime contractor for these projects at a total cost of \$1,080,977. The contractor has scheduled work to be completed in July, weather permitting.

KDOT urges all motorists to be alert and obey the warning signs when approach and driving through a highway work zone. To stay aware of all road construction projects across Kansas go to www.kandrive.org or call 5-1-1.
