## **Crack seal project begins Monday in Morris, Geary, and Dickinson counties**

Beginning Monday, Sept. 28, the Kansas Department of Transportation will begin a crack seal on U.S. 77 in Geary County, K-157 in Geary County, and K-209 in Dickinson and Morris counties.

Work on U.S. 77 will begin at the Morris/Geary county line and continue north to just south of I-70. Work on K-157 will begin at Rock Springs 4-H Center and continue east to U.S. 77. Work on K-209 will begin at Woodbine and continue east to U.S. 77. (see attached map)

Drivers should expect a delay of up to 15 minutes and plan extra time in their travel schedules as traffic will be reduced to lane following a pilot car through the work zone.

The prime contractor for this \$71,000 project is American Pavement Solutions Inc., of Green Bay, Wisconsin. The contractor has scheduled this project to be completed in October, weather permitting.

KDOT urges all motorists to be alert and obey the warning signs when approaching and driving through a work zone. For more information and to stay aware of all road construction projects across Kansas, go to [www.kandrive.org](http://www.kandrive.org) or call 5-1-1.
