Survey for passing lane extension on U.S. 50 to start July 1

The Kansas Department of Transportation (KDOT) plans to begin a field survey on July 1 for an extension of the existing passing lanes on U.S. 50 in Harvey and Marion counties.

The two locations being surveyed are from 6.8 miles east of the I-135/U.S. 50 junction east for 1 mile and also from .5 mile west of U.S. 50/N. Harvest Hill Road east for 2 miles.

The survey will take place on the existing highway alignment.

KDOT expects the survey work to last 10 weeks. Activities include the use of survey instruments on the ground to determine locations of existing features within the corridor.

A member of the survey crew will contact property owners or tenants for permission to enter private property.

Larry Glessner, Field Survey Project Manager, of BG Consultants will be in charge of this survey for KDOT. Persons with questions may contact KDOT Public Affairs Manager Ashley Perez at (785)826-6799.
