## **K-43 crack seal beginning**

The Kansas Department of Transportation began the crack sealing of K-43 from I-70 to Hope today; a distance of approximately 20 miles. It is anticipated that this project will last 30 days, weather permitting. Traffic will be carried through the work zone by two flaggers and a pilot car during daylight hours only. Travelers should be prepared for a delay of less than 15 minutes.

KDOT urges all motorists to be alert, obey the warning signs, and "Give 'Em a Brake!" when approaching and driving through a highway work zone.
