Asphalt Overlay on K-14/96 Highway in Reno County set to begin

Starting around Monday, September 23, the Kansas Department of Transportation (KDOT) will begin an asphalt paving project on K-14/96 Highway in northern Reno County. This K-14/96 project runs from the west city limits of Nickerson continuing west 5.75 miles to Hodge Road. K-14/96 will have the roadway surface milled followed by an asphalt overlay. Project construction is scheduled to be completed by the middle of October, depending on delays due to adverse weather conditions.

Traffic through this work zone will be controlled by flagmen and pilot car, so drivers can expect delays of up to 15 minutes. There will be a 10 foot width restriction in the work zone, so vehicles with widths wider than 10 feet will need to use an alternate route. The work area will move daily and work will be underway during daylight hours only.

APAC Kansas Shears Division from Hutchinson is the prime contractor for this \$799,946 project, which is funded by T-WORKS, the transportation program passed by the Kansas Legislature in May 2010. For more information about T-WORKS projects

and funding visit the website, www.ksdot.org/tworks. Highway construction project locations and road condition information can be viewed at the <http://511.ksdot.org> website, or can also be accessed by telephone by dialing 511.

KDOT urges all motorists to be alert, obey the warning signs, and “Give ‘Em a Brake!” when approaching and driving through a highway work zone. Persons with questions about this road work or other KDOT projects can call South Central Kansas Public Affairs Manager, Martin Miller, at 620-663-3361 or 1-877-550-5368 (Toll free).
