Culvert Replaced on K-148 in Washington County Update

Due to inclement weather the start date for **beginning** this project has been pushed back to Wednesday, **July 31, 2013** weather permitting. The project involves the replacement of a **culvert on K-148 located 7 miles south of the city of Washington and 1.3 miles east of the Washington/Republic county line on K-148**. **KDOT maintenance forces will replace ½ of the culvert at a time by closing only one lane enabling traffic to continue to cross the bridge using the other lane throughout construction. Traffic will be controlled by flagmen. Drivers need to slow and watch for flaggers instructions as they approach the project. The work zone will be in effect during daylight hours only. Plans call for this project to be completed on or about Friday, Aug 2nd weather permitting.**

This project is funded through T-WORKS. For more information concerning the T-works program and specific projects visit the T-works web site at www.ksdot.org/tworks.
