

K-23 Fact Sheet

This project (#23-90 KA-1018-01) will make improvements to K-23 Highway. The project spans just north of the U.S. 24 Intersection in Hoxie north approximately 19 miles to the U.S. 83/K-383 Junction.

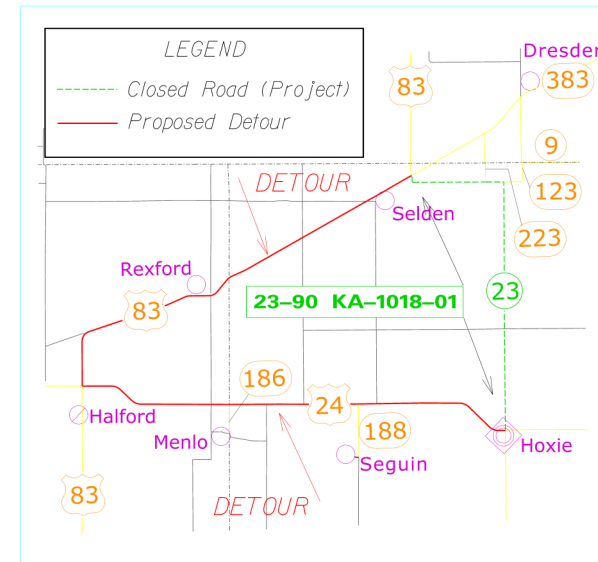

Hoxie and the surrounding communities will be significantly impacted during the project, **as plans are to close the route during the construction.**

A detailed **map** of the planned construction route and detour are highlighted in this flier (see right).

The scope of the project is to reconstruct the roadway on existing alignment. The end result will be a wider pavement.

This project lets to contract October, 2013 with plans to begin construction in March 2014. Weather permitting, the project will be done by mid-September, 2014. At that time, the roadway will be re-opened to normal traffic.

The official, state detour route is on U.S. 83 and U.S. 24 Highways.

The project to rebuild this portion of K-23 in Sheridan County is funded by T-WORKS, the transportation program passed by the Kansas Legislature in May, 2010. The estimated construction cost is \$11.3 million dollars. Visit www.ksdot.org/tworks for more project info.
