Paved Shoulder Work on K-196 Scheduled

Starting around Monday, June 11, the Kansas Department of Transportation will begin a three (3) foot wide asphalt shoulder paving project on K-196 highway in Harvey County. The project will begin at the I-135/K-196 Interchange, then continues east ten (10) miles to the to the Harvey/Butler County Line. This highway construction project is scheduled to be completed by September, depending on delays due to adverse weather conditions.

Traffic through this work zone will be controlled by flagmen and pilot car, so drivers can expect delays of up to 15 minutes. The work zone area will move daily and work will be underway during daylight hours only. There will be an 11 foot width restriction in the work zone, so vehicles with widths wider than 11 feet will need to use an alternate route. Highway construction project locations and road condition information can be viewed at the <http://511.ksdot.org> website, or can also be accessed by telephone by dialing 511.

Venture Corp from Great Bend is the prime contractor for this \$1,622,000 project, which is funded by T-WORKS, the transportation program passed by the Kansas Legislature in May 2010. For more information about T-WORKS projects and funding visit the website, www.ksdot.org/tworks.

KDOT urges all motorists to be alert, obey the warning signs, and “Give ‘Em a Brake!” when approaching and driving through a highway work zone. Persons with questions about the road work or other KDOT projects can call South Central Kansas Public Affairs Manager, Martin Miller at 620-663-3361 or 1-877-550-5368 (Toll free).
