Open house scheduled to discuss bridge projects on K-9 Highway

The Kansas Department of Transportation (KDOT) invites the public to an informational open house, in order to get feedback from the public on two future bridge projects which will temporarily close sections of K-9 Highway in Norton County.

Details of the event are as follows:

**Tuesday, October 15, 2013
Lenora Community Room
110 North Main Street
Lenora, Kansas**

**5:00 to 7:00 p.m. Central Standard Time
(Open House format)**

The open house will be hosted by KDOT. Engineers will discuss the scheduling of construction and associated detours, as well as share information regarding two bridge replacement projects in Norton County.

The first bridge is located approximately 11.5 miles east of the Norton/Decatur County line on K-9 Highway (between Lenora and the U.S. 283 junction), over the North Fork Solomon River Drainage. The second bridge project is located less than a mile east of the K-9/K-173 junction (between Edmond and Logan) on K-9 Highway, over Big Timber Creek.

The bridge projects are funded by T-WORKS, the Transportation program passed by the Kansas Legislature in May of 2010; and designed to create jobs,

preserve highway infrastructure, and spur economic development opportunities across the state.

Questions, concerns, or special needs prior to the meeting may be addressed by calling (785) 877-3315. The meeting space is ADA accessible.
