Resurfacing project on US-83 in Haskell County begins

The Kansas Department of Transportation expects work on a resurfacing project on U.S. 83 in northern Haskell County to begin by Thursday, July 11, weather permitting. The project runs from the U.S. 83/U.S. 160/K-144 junction, north to the Haskell/Finney county line, a distance of about 12 miles.

During construction, traffic will be limited to one lane through the work zone, guided by a pilot car. Drivers can expect delays of 15 minutes or less. The Kansas DOT urges drivers to be alert, pay attention to all work zone warning signs, slow down when approaching a work zone and be prepared to stop. Oversized loads will be restricted to a maximum length of 80 feet and a maximum width of 18 feet.

APAC Kansas, Inc., Shears Division is the primary contractor on this project at a cost of about \$1.1 million. KDOT expects work on this project to be completed by the end of July, depending on weather.

If you have questions on this project, you can call Greg Adams, Construction Engineer, at 620-624-4451.

You can stay aware of all road construction projects across Kansas at www.kandrive.org or by calling 5-1-1. To learn more about this and other T-WORKS projects, visit www.ksdot.org/tworks.
