Road work on US-81, K-106, in Ottawa County (Update)

A project on US-81 in Ottawa County begins Wednesday, June 12, 2013. The road will be overlaid with an Ultra-thin Bonded Asphalt Surface. The project begins at the Saline/Ottawa County line (approx. 2 miles north of the US-81/K-143 Interchange) then north to a point two miles south of the US-81/K-106 Interchange at Minneapolis, KS. Traffic will be restricted to the one lane at a reduced speed limit of 65 mph and with a lane width restriction of 14'. Plans call for the work to be completed in mid-August weather permitting.

Work also begins June 12th of K-106 beginning at the K-18/K-106 junction then north and east through Minneapolis to the Bennington State Lake. Traffic will be restricted to one lane with a width restriction of 11' and will be lead thru the work zone by pilot car during daylight hours only. K-106 will receive a mill and overlay. Construction is scheduled to be completed in mid-July.

The purpose of the project is to improve ride quality and extend the life of the highway.
