Survey Scheduled for K-14 in Mitchell County

Surveyors will soon be conducting work on K-14 in preparation for bridge improvements on a bridge over Leban Creek 3/4 mile south of the Beloit south city limit. The survey is designed to gather information necessary for the detailed design of the proposed improvements. The survey will extend 1320 feet north and south of the bridge. The field survey is scheduled to begin Wednesday, April 17, 2013 and will be completed by mid May weather permitting

A member of the survey crew will first contact property owners and/or tenants for permission prior to entering private property. Survey activities will include the use of survey instruments on the ground to determine locations of existing features within the survey corridor.

Kara LaRiviere, L.S., Party Chief, will be in charge of this survey for the KDOT.

This project is funded through T-WORKS. For more information concerning the T-works program and specific projects visit the T-works web site at www.ksdot.org/tworks.
