Survey Scheduled for K-177 in Chase County

Surveyors will soon be conducting work on K-177 in preparation of the replacement of a drainage culvert over a tributary of the Cottonwood River 12 miles north of the Chase/Butler County line. The survey will extend 750 feet north and south of the culvert scheduled for replacement. The field survey is scheduled to begin Monday, July 22nd and will be completed by mid-August weather permitting.

A member of the survey crew will first contact property owners and/or tenants for permission prior to entering private property. Survey activities will include the use of survey instruments on the ground to determine locations of existing features within the survey corridor.

William Haverkamp, L.S., Party Chief, will be in charge of this survey for the KDOT.

This project is funded through T-WORKS. For more information concerning the T-works program and specific projects visit the T-works web site at www.ksdot.org/tworks.
