Survey Scheduled for K-15 in Clay County

Beginning Wednesday, December 5th surveyors will be conducting work on K-15 8.1 miles north of the K-82 junction. The purpose of the surveying is to gather information needed for the detailed design of a new Republican River drainage bridge. The survey will include an area 1500' north and south of the bridge scheduled to be replaced. The work is scheduled for completion on or about Dec 26th, weather permitting.

A member of the survey crew will first contact property owners and/or tenants for permission prior to entering private property. Survey activities will include the use of survey instruments on the ground to determine locations of existing features within the survey corridor.

Kim Huxman, L.S., will be in charge of this survey.
