US-36 crash in Washington County

This morning on US-36, one mile east of the K-148 junction, a semi-trailer's axle broke spilling its load onto the median of the highway. The load, a section of wind generator tower, will remain in the median thru the night. Tomorrow morning, 9-5-2013, KDOT maintenance forces will close the eastbound passing lane of US-36 allowing 2 cranes to reset the tower section on a replacement trailer there-by clearing the median and allowing all lanes to be reopened by tomorrow evening.
