KDOT Launches New Topeka/Lawrence Metro Area Web Site

A new Web page that will provide the latest transportation and traffic information for the Topeka/Lawrence metro area has been launched on the Kansas Department of Transportation Web site.

Visitors to the site, <http://www.ksdot.org/topekaMetro/default.asp>, will find information such as daily/weekly lane closure listings for roadwork and traffic impacts in the metro area, news releases on construction and maintenance projects and/or related news on Kansas highways, detailed information on current project studies, links of interest that provide useful transportation information and traffic impacts for roadways adjacent to the metro highway network, and more. The information will cover all of Shawnee and Douglas counties.

Another new offering, visitors will now be able to link to roadwork information for all other Northeast Kansas counties, including Atchison, Brown, Doniphan, Jackson, Jefferson, Lyon, Marshall, Nemaha, Osage, Pottawatomie, Riley, and Wabaunsee. Visitors will also be able to link to the existing Kansas City Metro Area Web site that provides similar transportation and traffic information covering Johnson, Leavenworth and Wyandotte counties.

For more information, please contact Kimberly Qualls, Northeast Kansas Public Affairs Manager, at (785) 640-9340.
