## **KDOT Hosts Public Open House on US-40/West 6th Street & K-10 Interchange Area Transportation Plan**

The Kansas Department of Transportation (KDOT) is hosting a public open house for the Area Transportation Plan for the US-40/West 6th Street and K-10 interchange on **Thursday, March 1, 2012 from 6:00 p.m. to 7:30 p.m.** The public is invited to attend the open house style meeting anytime between 6:00 p.m. and 7:30 p.m. at the Langston Hughes Elementary School, 1101 George Williams Way, in west Lawrence.

The US-40/West 6th Street and K-10 Interchange Area Transportation Plan includes a 1.5-mile segment of US-40/West 6th Street beginning at George Williams Way proceeding west to East 800 Road. The plan study area also includes the K-10 ramps and an area approximately one-half mile on either side of US-40/West 6th Street. KDOT has partnered with the City of Lawrence, Douglas County, and the Lawrence-Douglas County Metropolitan Planning Organization to develop this area transportation plan.

At the open house participants will learn about and view plan recommendations as well as be able to provide their input and comments on the plan. KDOT staff and plan team members will be available to answer questions and talk with area residents, neighborhood associations, property owners and other interested stakeholders.

The US-40/West 6th Street and K-10 Interchange Area Transportation Plan will gather information about the nature and magnitude of future development and develop a list of transportation improvements and access management guidelines to accommodate this growth

The plan will be conducted by a local engineering firm, BG Consultants, Lawrence, KS, and will cost approximately \$100,000. The final report is anticipated to be completed by late spring 2012.

The area surrounding the US-40/West 6th Street and K-10 interchange has significant development potential. With any large-scale development a variety of transportation challenges will eventually come about, thus planning for this future development is a must. The end product of this planning process will present a meaningful, coordinated plan to preserve safe and efficient movement of people and goods through the plan area.

Stakeholder and citizen input will be a critical component of this plan so it adequately encompasses many perspectives. Opportunities for participation will include public open houses, public official briefings and key stakeholder interviews.

For further information on this plan, please contact Kimberly Qualls, KDOT Northeast Kansas Public Affairs Manager at (785) 640-9340 or toll-free in Kansas at 1-877-550-5368, or via e-mail [kqualls@ksdot.org](mailto:kqualls@ksdot.org).

If you require a sign-language interpreter or other communication aids at the public open house, please call Kimberly Qualls, KDOT Public Affairs Manager at (785) 296-3881 at least one week in advance of the meeting.
