General Questions: Revised – 10/19/2015

When is the Contractor's Qualification Statement and Experience Questionnaire (Statement) due at KDOT?

For prequalification renewal, statements are due in the Director of Operations' office 10 business days prior to the contractor's annual prequalification month.

For new contractors, it is due in the Director of Operations' office 10 business days before the intended bid letting date.

What is the prequalification date?

The prequalification month is the month of the letter notifying the contractor of the amount of qualification and work classes approved.

How long is the prequalification effective?

It is effective one year from the month of the letter.

If the subsidiary or subsidiaries of a parent company seek to prequalify, how should the name(s) be shown?

On the cover of the Contractor's Qualification Statement and Experience Questionnaire, the subsidiary or subsidiaries seeking to prequalify should be named. The assets, liabilities, and equity of each of the entities, which seeks to prequalify, must be identifiable within the financial statements.

If a financial statement or another attachment is included, should it be placed behind the other forms?

Place the attachments directly behind their appropriated section, e.g. detailed equipment list goes in Section B.

To what address should the statement be mailed?

Kansas Department of Transportation
Dwight D. Eisenhower State Office Building
Attn: Director of Operations
700 SW Harrison Street, 8th Floor
