KANSAS DEPARTMENT OF TRANSPORTATION

www.jobs.ks.gov

- Do you like the idea of building highways, driving trucks, operating a snowplow, flying drones and/or getting to work outside most of the time?
- How about helping to build and maintain the highways in Kansas so that all drivers have smooth roads and feel safe traveling on Kansas roadways?
- Did you know that KDOT has on-the-job training? With a high school diploma or equivalent, you too can be a part of the KDOT Team.
- If you like challenges and want to make a difference, come explore careers with KDOT! Join Our Team!

Equipment Operator Trainee Starting Salary: \$17 an hour

Work includes highway maintenance, emergency work, mowing, snow and ice removal. On the job training is provided. Equipment used includes electric/gas powered tools, mowers, rollers, loaders and dump trucks.

Requirements:

On the job, paid training, to assist you in obtaining a Commercial Driver's License (must be 18 years or older to obtain a CDL)

Engineering Technician Associate Starting Salary: \$18 an hour

Perform basic math and engineering calculations to make sure what's being built matches plans.

Work may include operating electronic survey instruments and material testing equipment.

During snow and ice events, Engineering Technicians operate snowplow trucks as needed!

Benefits: Health insurance on first day of employment (medical; dental and vision). Working at KDOT also includes: Tuition Reimbursement, Basic Life Insurance, Employee Discount Program, Pension, Retirement Plan and so much more!

KDOT VALUES: Safety • Innovation • Customer Service • Money Matters
Teamwork • Transparency • Accountability

There are plenty of opportunities for advancement.
