Cut at 7” and then fold in half. This is just a one fold brochure...so the third column is cut off and not used.

Two-Way Left Turn Lanes

This information is available in alternative accessible formats. To obtain an alternative format, contact the Kansas Department of Transportation, Office of Transportation Information, 2nd Floor-West Wing, Eisenhower State Office Building, Topeka, Kansas, 66603-3745 or phone (785) 296-3585 (Voice)/Hearing Impaired-711.
Two-way streets may have a center lane marked as a two-way left turn lane (TWLTL). This lane is bordered on either side by two yellow lines - the inner line is broken or dashed, the outer line is solid. Pavement marking arrows may or may not be present.

This lane is for the exclusive use of left-turning vehicles and may be used by drivers making a left turn in either direction. It shall not be used for passing or travel by a driver except to make a left turn.

A TWLTL is provided to remove left-turning vehicles from the through lanes and store those vehicles in a turn lane until an acceptable gap in opposing traffic is available.

When a TWLTL is added to a two lane or four lane street, crashes may be reduced. This reduction is possible as stopped or slow left-turning vehicles are removed from the through lanes. Drivers in the TWLTL may feel more comfortable waiting for an opening in the near side of the street.

Delay to through vehicles will also be reduced because left-turning vehicles will not block the through lanes.

TO TURN LEFT FROM THE STREET:
Look for opposing vehicles already in the TWLTL, signal a left turn, then drive completely inside the TWLTL lane. Don’t stop at an angle with the rear of your vehicle blocking through traffic. When safe, move to the left into the through traffic lane and proceed on.

TO TURN LEFT INTO THE STREET:
Wait for an opening in traffic on the near side of the street. Look for vehicles entering the center lane to turn left. When safe, turn left driving completely inside the center lane. Again, do not stop with part of your vehicle in the through traffic lane. When safe, move to the left into the through traffic lane and proceed on.
