

Final Report
December, 2007

US 24/40

A vision for the future

The US 24/40 Corridor Study 2007

Amended April 2008

TABLE OF CONTENTS

Chapter 1: Executive Summary	1-1
Background.....	1-1
Purpose of the Corridor Study	1-1
Study Area.....	1-1
Development Plans and Policies	1-5
Traffic and Access Management.....	1-9
Design Policies.....	1-13
Implementation	1-13
Chapter 2: Existing Conditions – Traffic and Transportation	2-1
Introduction.....	2-1
Roadway Capacity Analysis	2-1
Roadway Access	2-2
Traffic Safety Analysis	2-7
Transit Service	2-10
Bicycle Level of Service Analysis	2-10
Roadway Right-of-Way Inventory.....	2-11
Chapter 3: Existing Conditions – Economic Market Assessment	3-1
Introduction	3-1
Economic Conditions and Market Assessment.....	3-1
Existing Economic Conditions	3-1
Total Business Establishments	3-1
Local Civilian Employment	3-2
South Leavenworth County Labor Force Characteristics.....	3-2
Market Assessment.....	3-4
Retail Pull Factor and Household Income	3-4
Education Attainment of the Labor Force	3-5
Building Leasing Rates.....	3-6
Local Property Taxes Rates	3-7
Competition with Other Highway Corridors	3-7
Projected Corridor Market Demand	3-10
Existing Commercial and Industrial Development.....	3-10
Conclusion	3-13
Chapter 4: Existing Conditions – Land Use and Development	4-1
Introduction	4-1
Developing Patterns and Existing Land Use.....	4-1
Major Utility Inventory	4-4
MetroGreen	4-7
Chapter 5: Public Involvement	5-1
Introduction	5-1
Critical Corridor Issues	5-1
Focus Group Meeting.....	5-2

Planning Policy Charrette.....	5-3
Visual Preference Workshop Summary	5-7
Community Opinion Survey	5-11
Open House Community Meeting	5-11
Final Recommendations Presentation.....	5-11
Chapter 6: Environmental Challenges and Opportunities.....	6-1
Introduction	6-1
Visual Quality Assessment	6-1
Wetlands	6-5
Flood Plains	6-9
Water Quality.....	6-14
Geology and Soils.....	6-14
Threatened and Endangered Species and Critical Habitat Impacts.....	6-18
Vegetation.....	6-20
Cultural Resource.....	6-24
Chapter 7: Transportation Corridor Management	7-1
Introduction	7-1
Access and Traffic Management Plan Overview.....	7-1
Access Management Best Practices.....	7-2
Plan Development Methodology.....	7-5
Access Management Standards.....	7-11
Interim Access & Traffic Management Plan.....	7-13
Traffic Demand Model	7-27
Traffic Forecasts.....	7-31
Chapter 8: Future Land Use and Development Regulations	8-1
Introduction	8-1
TRANSECT Planning.....	8-1
US 24/40 Corridor Transect Plan	8-3
Transect Zone Descriptions.....	8-8
Environmental Planning.....	8-13
US 24/40 Corridor Greenway Trail System	8-19
Model Overlay District	8-21
Chapter 9: Corridor Identity	9-1
Introduction	9-1
Corridor Guiding Principles	9-1
Corridor Identity Design Guidelines.....	9-3
Guidelines for Low Intensity Transects.....	9-3
Streetscape Identity (Low Intensity Transects).....	9-3
Lighting (Low Intensity Transects)	9-5
Utilities (Low Intensity Transects).....	9-6
Signage Design (Low Intensity Transects).....	9-6
Building Design (Low Intensity Transects)	9-7
Guidelines for Urban Transect Zones.....	9-8
Streetscape Identity (Urban Transects)	9-8

Lighting and Banners (Urban Transects)	9-10
Signage Design (Urban Transects)	9-11
Utilities (Urban Transects)	9-12
Building Design (Urban Transects)	9-13
Chapter 10: Implementation and Coordination Strategy	10-1
Introduction	10-1
Inter-local Agreement	10-1
Implementation Action Plan	10-2
Greenway Trail System Acquisition and Implementation Options	10-8
Funding Resources	10-13
Appendix A: 2007 US 24/40 Corridor Community Opinion Survey, FINAL Report	A-1
