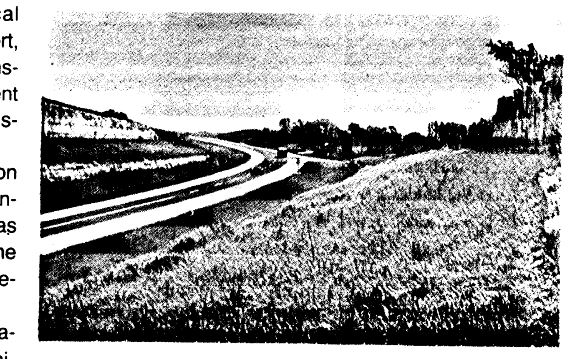
Transportation modes in Kansas

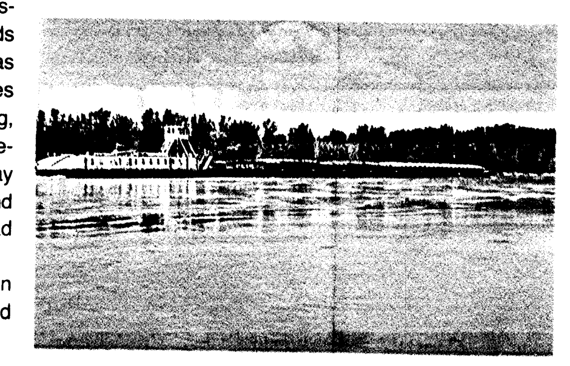
State Highways, county and local roads and streets, railroads, air transport, pipelines, and waterways are the transportation modes the Kansas Department of Transportation considers in its transportation planning.

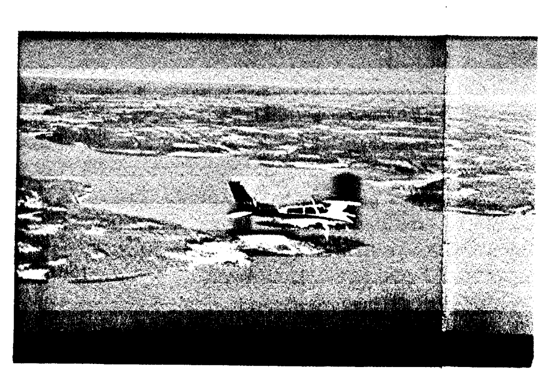
Blending these modes and the function of mass transportation into a single intermodal system to serve all of Kansas will achieve a greater efficiency at the least cost for operation and maintenance.

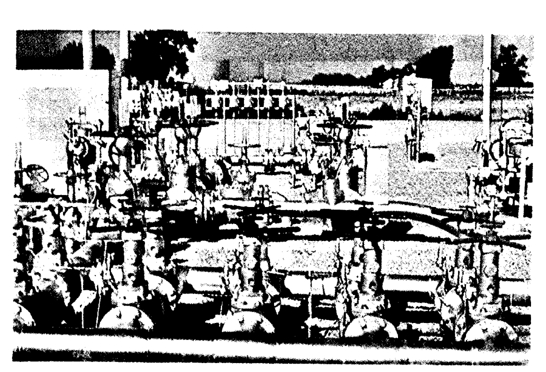
In the foreseeable future the combination of roads, highways and motor vehicles will continue to be the basic transportation mode for the people and goods in Kansas. For this reason, the Kansas Department of Transportation devotes most of its resources to the planning, development, operation and maintenance of the 10,000 mile state highway system, and to the close cooperation and aid to local governments with their road problems.

The DOT also is deeply involved in assisting cities with airport planning and in preparing a state rail plan.









Kansas has 820 miles of interstate routes and 9,000 miles of other state highways.

There are 124,000 miles of local roads and streets in Kansas. Only two states have more miles.

Thousands of box cars are carried on the 4,000 miles of mainline railroads and 3,500 miles of branch lines.

One waterway now serves Kansas—the Missouri river from Kansas City to White Cloud.

Kansas for years has been a leader in the manufacture of general aviation aircraft. The state has nine air carrier ports and 115 other public airports.

Fifteen major pipeline companies have 11,650 miles of pipelines in Kansas.

Greetings

From THE STATE CAPITOL . . .

STATE OF KANSAS

OFFICE OF THE GOVERNOR
State Capitol
Topeka

ROBERT F. BENNETT
Governor

Dear Traveler:

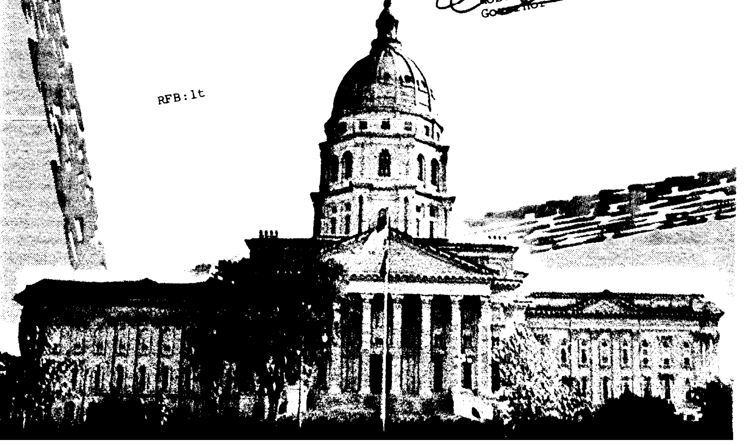
This Kansas highway map is your guide to the excellent highways Kansas provides for its citizens and its tourists, as well as a guide to some of the many points of historical interest throughout the state.

Kansas has many recreational opportunities and displays the traditions of many cultures. Our highways lead to lakes, state parks and numerous other attractions.

We pride ourselves on our friendliness and our hospitality, and we hope that you will spend as much time as possible in our state.

Located in the center of the United States, Kansas is a focal point for transportation and communications networks. It is the center of the food basket for the nation, and for the world, and we proudly invite you to share it with us.

Very sincerely,

Robert F. Bennett
Governor


RFB:lt
